Introduction

These release notes accompany **mocha AE 3.2.1**. Documentation is available inside **mocha AE** by pressing the F1 key, and online tutorials are available at:

www.imagineersystems.com/videos/

New features in mocha AE 3.2.1

This is a patch release to fix some critical defects experienced by some users. See Fixed Issues below.

New features include:

- New shortcut keys for Timeline navigation:

Alt + Left Arrow	Go to start of clip
Alt + Right Arrow	Go to end of clip
Alt + Down Arrow	Set in-point
Alt + Up Arrow	Set out-point

New features in mocha AE 3.2.0

This is a patch release with internationalization features and several defect fixes.

New features include:

- Support for international file names and directories.
- Support for international layer and clip names.
- Camera Solve nulls now export with names relative to their layers and corners.
- Exported Camera Solve nulls are now suffixed with the word "inaccurate" if the export has not found an accurate solve for the null position.

New features in mocha AE 3.0.0

mocha AE 3.0.0 contains new functionality and major changes to workflow.

New features include:

- New layer tree system
- Ability to customize color for both mattes and splines
- Project merging
- Bounding boxes for splines
- Multi-spline selection and modification
- Layer groups
- 3D camera solver for After Effects
- Dope sheet for key manipulation
- Enhanced link tool to join points of separate layers
- Zooming into footage now shows individual pixels

Fixed Issues

Issue:	DE2481 Panning no longer works with middle mouse button
Platform:	All Platforms
Bug Description:	Holding the middle mouse button now enables panning again.
Issue:	DE2480 Crash when tracking if one or more spline control points are selected
Platform:	All Platforms
Bug Description:	Tracking shapes when their points were selected could cause a crash.
Issue:	DE2467 Frame Offset field is disabled if timecode is selected
Platform:	All Platforms
Bug Description:	If you used timecode instead of frames, the frame offset field was disabled.
Issue:	DE2437 Timecode does not offset
Platform:	All Platforms
Bug Description:	If you entered an offset in Timecode when you start a new project, the timeline would start at zero.
Issue:	DE2436 Wrong position of new keyframe if previous keyframes were removed by undo
Platform:	All Platforms
Bug Description:	If you performed an undo operation after adding new keyframes sometimes your next keyframes would appear in the wrong place on the timeline.
Issue:	DE1355 Dope Sheet doesn't show timecode
Platform:	All Platforms

Bug Description:	The Dope sheet now correctly shows timecode or frames to reflect what is in use on the timeline.
Issue:	DE685 Some changes to Preferences are saved even when cancelled
Platform:	All Platforms
Bug Description:	Pressing "Cancel" when changing preferences in the Preference dialog would still save some changes.

Known Issues

Issue:	DE2465 Spline tools are not disabled if the current frame is out of in/out project points range
Platform:	All Platforms
Bug Description:	Mocha allows you to draw a spline if your playhead is outside the in and out points on the timeline, which makes the spline hidden.
Workaround:	Move the playhead inside the in and out points before drawing.
Issue:	DE2461 Some tool tips are clipped on different systems
Platform:	All Platforms
Bug Description:	Hovering over some interface elements shows a clipped tool tip, for example "Planar Grid" on Windows.
Workaround:	None.
Issue:	DE2454 Cannot marquee-select immediately after selecting a bunch of points
Platform:	All Platforms
Bug Description:	When selecting groups of points with the marquee tool, you can't select again until you've deselected the previous points.
Workaround:	None.
Issue:	DE2441 Cannot delete a point by pressing "Delete" key if Dope Sheet is opened
Platform:	All Platforms
Bug Description:	If you press "Delete" with the dope sheet open, spline points will not delete.
Workaround:	Switch to Parameters or Curve Editor, the delete.
Issue:	DE2426 Clicking in the Layer Controls pane when adding a spline causes spline to close without reverting back to arrow tool
Platform:	All Platforms
Bug Description:	If you click in the layer controls panel while drawing a spline, the spline will finish but the draw tool will remain active yet unusable.
Workaround:	None.
Issue:	DE2420 Playhead continues to advance frames after the Contour shuttle controller jog is released
Platform:	All Platforms
Bug Description:	When using the Contour Design ShuttlePRO jog controller to drive frame advancement, the playhead will over compensate and keep moving after you have stopped rotating.

Workaround:	Rotate the jog slower.
Issue:	DE2361 Relinking frames does not set in/out points
Platform:	All Platforms
Bug Description:	When relinking a clip from a freshly opened file, the in/out points set to the ends of the timeline, rather than what they were set to in the file.
Workaround:	Save and reopen the relinked file.
Issue:	DE2359 Switching on Project Notes pane causes mocha window jumping upon tracking on Mac
Platform:	OS X
Bug Description:	If you have Project Notes open on the mac, tracking will cause the GUI to jump.
Workaround:	Close Project Notes.
Issue:	DE2356 Sometimes autosave project cannot be saved on Windows
Platform:	All Windows Platforms
Bug Description:	Autosave sometimes will not work if license drops during the autosave.
Workaround:	None
Issue:	DE2354 Mocha with server and client license in the same directory opens in LE Mode on Mac
Platform:	OS X
Bug Description:	Installing both the server and the client license with the License Manager to the server will cause a License error if you run mocha on that machine.
Workaround:	Remove the client license.
Issue:	DE2353 Project that was saved after connection to the license server was lost doesn't appear in MRU files
Platform:	All Platforms
Bug Description:	If the license drops when you save a project, it will not appear in the recently opened list.
Workaround:	None
Issue:	DE2351 Footage is displayed corrupted after moving a file with mocha still open
Platform:	All Platforms
Bug Description:	If footage is moved after closing a project, reopening the project will show a corrupted image.
Workaround:	Restart mocha.
Issue:	DE2346 Bounding box actions don't mark a project as modified
Platform:	All Platforms
Bug Description:	If you use the Transform tool and nothing else, the file will not be marked as edited.
Workaround:	Modify anything other part of the layers.
Issue:	DE2344 Canvas errors jump when zooming into the canvas
Platform:	All Platforms

Bug Description:	Zooming in when there is an error message on the canvas will cause it to jump.
Workaround:	None
Issue:	DE2343 Sometimes there are overlapping messages on the canvas
Platform:	All Platforms
Bug Description:	If more than one error is shown on the canvas, they overlap.
Workaround:	None
Issue:	DE2342 Wrong matte clip is removed when deleting a layer
Platform:	All Platforms
Bug Description:	If you import a matte clip to a layer and remove the layer, the imported clip is removed as well.
Workaround:	None
Issue:	DE2339 Sometimes error messages are out of the Canvas
Platform:	All Platforms
Bug Description:	Some error messages are too long to fit on the canvas.
Workaround:	None
Issue:	DE2337 "Failed to allocate memory buffer" error in creating a project based on some EXR footage
Platform:	All Platforms
Bug Description:	In some cases EXR files will not open correctly for new projects and throw a memory error.
Workaround:	Try a different sequence.
Issue:	DE2316 A master key is set as soon as you switch to AdjustTrack module
Platform:	All Platforms
Bug Description:	If you switch to the AdjustTrack Module, a master key is set immediately.
Workaround:	Set a new master key and delete the old one.
Issue:	DE2307 Floating client license always overrides node-locked
Platform:	All Platforms
Bug Description:	If you have two client licenses and one of them is for a floating license, it will always be used as the license even if it fails to find a server.
Workaround:	Remove the floating client license from the license directory if not in use
Issue:	DE2298 Redundant file created in exporting shape data to Final Cut for a project with not Square PAR
Platform:	All Platforms
Bug Description:	A random file is created when exporting shape data to Final Cut when the PAR is not Square.
Workaround:	None.
Issue:	DE2294 Color boxes of the base clip and all inherited clips are changed after relinking an inherited clip
Platform:	All Platforms

Bug Description:	If you relink a clip, the icon for the base clip and its inherited clips changes color.
Workaround:	None.
Issue:	DE2284 Redundant parameters in Clip nodes in the Curve Editor and the Dope Sheet
Platform:	All Platforms
Bug Description:	There are a few parameters in the dope sheet and curve editor that have no relevance to the mocha interface.
Workaround:	None
Issue:	DE2277 Resizing/moving of GUI when creating a project with small screen resolution
Platform:	OS X
Bug Description:	On very small screen resolutions the mocha interface blinks and adjusts when creating a project.
Workaround:	Use a larger screen resolution.
Issue:	DE2253 Cannot marquee-select points a second time.
Platform:	All Platforms
Bug Description:	When selecting groups of points with the marquee tool, you often can't select a secondary bunch using SHIFT.
Workaround:	None
Issue:	DE2230 Trial License Request dialog doesn't save the last state if some fields are empty
Platform:	All Platforms
Bug Description:	If you clear a field in the Request Trial dialog and cancel, the field remembers the entry.
Workaround:	None
Issue:	DE2228 There are no Serbia and Montenegro countries in the Request Trial country list
Platform:	All Platforms
Bug Description:	Two countries are missing from the country drop down in the Request Trial dialog.
Workaround:	None
Issue:	DE2223 Cannot select keyframes in the Curve Editor after clicking on an empty space
Platform:	All Platforms
Bug Description:	If you click a keyframe in the curve editor then click off it, you cannot select it again.
Workaround:	None
Issue:	DE2220 Some timeline buttons are enabled if there are no opened projects
Platform:	All Platforms
Bug Description:	On opening mocha or after closing a project, some of the timeline buttons are still clickable.
Workaround:	None

Issue:	DE2211 Crash in solving some projects
Platform:	All Platforms
Bug Description:	For some projects the camera solver will hang or crash.
Workaround:	Try a different set of tracks to solve with.
Issue:	DE2206 Spline and point numbers do not reset when starting a new project
Platform:	All Platforms
Bug Description:	If you have worked on one project and start another, the splines and point ids keep incrementing from the last one drawn.
Workaround:	Restart mocha.
Issue:	DE2203 AdjustTrack reference points have incorrect view when switching active state of a layer
Platform:	All Platforms
Bug Description:	Reference points are shown incorrectly when the active state of the layer is toggled off on one frame then on on another.
Workaround:	None
Issue:	DE2202 Wrong selection of points when restoring a point that was removed by "Delete" key
Platform:	All Platforms
Bug Description:	If you undo the deletion of a point, it will also be selected when you try to select another point.
Workaround:	Click the canvas to deselect everything, then reselect.
Issue:	DE2190 Sometimes shape data exported to After Effects "Paste mocha mask" gets corrupted spline points
Platform:	Windows and OS X
Bug Description:	Sometimes shape points can throw spline data out when using "Paste mocha mask".
Workaround:	Find the problem point in mocha and delete or adjust it.
Issue:	DE2188 Holding down cmd/ctrl + shift while moving spline points jumps to the cursor position after release
Platform:	All Platforms
Bug Description:	Cmd/Ctrl + Shift will slow down the movement of a point, but then suddenly jump to the cursor position when you stop using the shortcut.
Workaround:	None
Issue:	DE2187 Error when saving shape data to "mocha shape for Final Cut" format if there is custom pixel aspect ratio
Platform:	All Platforms
Bug Description:	"Failed to write shape data to disc!" error will pop up if there is a custom PAR. The file will still save correctly.
Workaround:	None
Issue:	DE2182 Imported matte clip shows track mattes incorrectly.
Platform:	All Platforms
Bug Description:	When you import a matte clip it does not show the correct track matte.

Workaround:	None
Issue:	DE2178 Custom modifier keys don't work if certain panes are focused
Platform:	All Platforms
Bug Description:	You cannot use use Q, W, E, Z, X or I modifier keys when some panels are selected first.
Workaround:	Select the viewer canvas before using the tool.
Issue:	DE2177 Predefined shortcuts don't work on non-latin input language on Mac
Platform:	OS X
Bug Description:	International layouts can sometimes cause shortcuts to stop working.
Workaround:	Choose a keyboard layout that matches a US or UK layout.
Issue:	DE2176 Custom modifier keys malfunction in Mac Remote Management (VNC)
Platform:	OS X
Bug Description:	If you open mocha remotely some of the key shortcuts and toggles will not work.
Workaround:	None
Issue:	DE2175 File name in the "Save shape data as..." dialog is empty if a selected layer has the same name as any folder in the last selected directory
Platform:	All Platforms
Bug Description:	If your layer name matches the folder you save your data to, then the filename field will be empty when you go to save shape data.
Workaround:	Rename the folder or layer, or just type a new name.
Issue:	DE2174 "Preview On/Off" menu item has incorrect shortcut
Platform:	All Platforms
Bug Description:	Even though there is a "P" shortcut for Preview On/Off, it can be cancelled out by another conflicting "P" shortcut.
Workaround:	None
Issue:	DE2173 "Preview On/Off" menu item is always disabled
Platform:	All Platforms
Bug Description:	The "Preview On/Off" menu item is always disabled. You cannot select it.
Workaround:	None
Issue:	DE2171 K shortcut doesn't work for adding/removing keyframes
Platform:	All Platforms
Bug Description:	Nothing happens when you press "K" when working with keyframes.
Workaround:	Use the add and remove keyframe buttons on the timeline.
Issue:	DE2155 Moving tracking keyframes sometimes breaks tracking
Platform:	All Platforms
Bug Description:	Sometimes if you manipulate the tracking keys in the dope sheet, additional tracking for the layer will not work.

Workaround:	None
Issue:	DE2148 Cannot create a project based on QuickTime footage after closing and reopening remote desktop session
Platform:	Windows and OS X
Bug Description:	There is a "Corrupt or unsupported format" error if you try to use QuickTime after closing and reopening a remote desktop session to mocha.
Workaround:	None
Issue:	DE2130 Field parameters are not showing keyframes correctly in timeline
Platform:	All Platforms
Bug Description:	When changing or clicking on field parameter values, the timeline does not show the keyframes. If you click on a non-field parameter, such as a check box, they suddenly show.
Workaround:	None
Issue:	DE2099 Wrong behaviour when pressing "eye" view icon for some sub-nodes in the Curve Editor
Platform:	All Platforms
Bug Description:	If you click on some of the view eye icons in curve editor they will not appear to change state.
Workaround:	None
Issue:	DE2097 Pan and Zoom keys don't work when tracking
Platform:	All Platforms
Bug Description:	When tracking you can't pan or zoom in the view.
Workaround:	None
Issue:	DE2081 Sometimes camera solve settings don't reset between projects
Platform:	All Platforms
Bug Description:	If you start a new project after solving a camera, sometimes the 3D Motion setting and Quality are the set the same as previously open project.
Workaround:	Restart mocha.
Issue:	DE2075 Wrong height for interlaced .mov footage
Platform:	Windows and OS X
Bug Description:	The clip height is listed wrong in the Clip page for interlaced QuickTime footage.
Workaround:	None
Issue:	DE2070 Crash when trying to create a project based on footage in a location has a too long path
Platform:	All Platforms
Bug Description:	Footage in a very long directory path can cause mocha to crash when trying to create a project.
Workaround:	Choose a shorter path.
Issue:	DE2069 Wrong data in the first frame in After Effects after importing camera data from an interlaced project.

Platform:	All Platforms
Bug Description:	Nulls based on the surface corners don't have the same place in AE as they do in mocha at the first frame when using interlaced footage.
Workaround:	Use progressive footage.
Issue:	DE2068 Projects that were unsuccessfully created show in Recent Files
Platform:	All Platforms
Bug Description:	If a project cannot be created successfully due to read only directories or other problems, they still show in Recent Files.
Workaround:	None
Issue:	DE2067 An extra error message is shown if unable to create a project file
Platform:	All Platforms
Bug Description:	There are two messages shown instead of one when a project file cannot be created.
Workaround:	None
Issue:	DE2064 Frame numbers are shown in progress bar instead of fields for projects based on interlaced footage
Platform:	All Platforms
Bug Description:	Frame numbers are shown in the progress bar instead of fields for projects based on interlaced footage.
Workaround:	None
Issue:	DE2063 Incorrect fields numbers in progress bar for projects based on interlaced footage
Platform:	All Platforms
Bug Description:	Progress bar shows frames instead of fields when tracking or rendering interlaced footage.
Workaround:	None
Issue:	DE2057 Viewer settings are reset whenever an element is re-linked.
Platform:	All Platforms
Bug Description:	If you modify the interface then relink your clip, the view is reset.
Workaround:	None
Issue:	DE2055 Process icon isn't updated immediately when changing Link To Track dropdown
Platform:	All Platforms
Bug Description:	The process icon does not immediately turn off or on when updating the Link to Track property.
Workaround:	None
Issue:	DE1970 Sometimes the Welcome Screen doesn't contain information about a license error
Platform:	All Platforms
Bug Description:	Sometimes reopening mocha when it has a broken license will not show the license error, only the LE mode message.

Workaround:	None
Issue:	DE1988 Transform tool bounding box turns on when switching module pages
Platform:	All Platforms
Bug Description:	If the transform tool is switched off it can turn back on again when changing modules
Workaround:	None
Issue:	DE1864 "Frame out of range" error in opening mocha from AE with setting frame range in the "New project" dialog
Platform:	All Platforms
Bug Description:	If there are frame in/out points in AE, and you set these ranges correctly when you load mocha via AE, you can get an initial "Frame out of range" error.
Workaround:	None. Error does not affect workflow.
Issue:	DE1832 After using tools in View Controls, the mouse focus does not return to the main viewer
Platform:	All Platforms
Bug Description:	Clicking on some buttons in the View controls will not restore focus back to the main view.
Workaround:	Click in the viewer after using View Controls.
Issue:	DE1804 Occasional freeze on tracking a shot with existing AdjustTrack keys
Platform:	All Platforms
Bug Description:	Sometimes a shot that already has AdjustTrack keys can freeze mocha if you try to re-track.
Workaround:	None
Issue:	DE1744 Undocked floating panels are hidden when reloading mocha
Platform:	All Platforms
Bug Description:	If you undock a panel it will be hidden when you reopen mocha. You need to turn them back on in the View menu.
Workaround:	None
Issue:	DE1733 Crash in moving a master point in the AdjustTrack page if there are several selected layers
Platform:	All
Bug Description:	If you have more than one layer selected mocha can crash if you try to adjust master points in AdjustTrack.
Workaround:	Select only 1 layer at a time in AdjustTrack.
Issue:	DE1724 Bounding box isn't shown for multiple selected layers if the clicked one was out of range
Platform:	All
Bug Description:	The bounding box isn't shown for multiple selected layers if the first one clicked is out of range

Workaround:	None
Issue:	DE1723 Checking and then unchecking autokey allows you to scroll through frames in wrong directional keys mode
Platform:	All
Bug Description:	Trying to nudge points after turning Autokey off then on again can sometimes move the playhead instead.
Workaround:	None
Issue:	DE1717 Cannot create a new layer group by clicking on the corresponding icon
Platform:	All
Bug Description:	You can't create a group by itself. You need to select layers first.
Workaround:	Select a layer you want to group before you click the group icon
Issue:	DE1649 Undoing adding a layer point, selecting Layer Controls pane and clicking on the canvas cause an error
Platform:	All
Bug Description:	Undoing adding a layer point, selecting Layer Controls pane and clicking on the canvas cause an error
Workaround:	None
Issue:	DE1615 Activating after failed attempt leaves machine unlicensed
Platform:	All
Bug Description:	There is the error: "License doesn't support this version" and Software is still unlicensed if you try to reactivate after a failed attempt. Only activates when software is online from the start.
Workaround:	Quit mocha and reactivate.
Issue:	DE1606 OpenGL problems in playback on 32 bit windows
Platform:	Windows
Bug Description:	"An error has occurred whilst rendering: Failed to texture image" error and grey line on the footage when playing footage on 32bit windows
Workaround:	None.
Issue:	DE1597 Crash in cancelling mocha activation
Platform:	All
Bug Description:	Software will crash if you cancel while mocha is sending the activation code.
Workaround:	None.
Issue:	DE1590 Sometimes there is wrong layers order after duplicating
Platform:	All
Bug Description:	Duplicating multiple layers at once can sometimes throw them out of order.
Workaround:	Duplicate single layers at a time.
Issue:	DE1589 Cannot rename layouts
Platform:	All
Bug Description:	If you rename a layout it does not change the name in the menu.

Workaround:	Restart mocha. The names will be updated.
Issue:	DE1564 Wrong layers order after redo including in a group
Platform:	All
Bug Description:	If you group more than 2 layers and undo moving a layer outside of the group, it may not return to the right position
Workaround:	None
Issue:	DE1560 Wrong group position after grouping selected layers
Platform:	All
Bug Description:	The group should be created and remain in position where the top-most selected layer was positioned, rather than moving to the top
Workaround:	None
Issue:	DE1556 No frames for some QuickTime files that have edited points from other programs
Platform:	All Platforms
Bug Description:	In some cases if you import a H.264 file that has edit points from another program (Premiere for example), the footage will import with 0 frames and a frame rate of 10.
Workaround:	Use a different format
Issue:	DE1555 Incorrect behavior for "Selected mattes" mode for several selected layers
Platform:	All Platforms
Bug Description:	If you select "Selected mattes" mode and switch on Mattes, only one matte is turned on
Workaround:	None
Issue:	DE1554 Wrong surface detection for several selected layers
Platform:	All Platforms
Bug Description:	Try to select and move the surface of different layers in a multi-selection it will only let you move one.
Workaround:	Adjust one at a time
Issue:	DE1539 Wrong layer state when clicking on icons in the Layer Controls pane except Layer Name
Platform:	All Platforms
Bug Description:	Layers become selected when clicking on their layer icons, such as lock, render and view.
Workaround:	None
Issue:	DE1524 Uberkey Functionality does not work for Transform tools.
Platform:	All Platforms
Bug Description:	The Q, R and W tools will not be affected by Uberkey.
Workaround:	Use standard transform processes, such as the bounding box.
Issue:	DE1516 Crash on exit
Platform:	All Platforms

Bug Description:	Sometimes mocha will crash when you quit the program.
Workaround:	None
Issue:	DE1512 mocha crashes in solving the project
Platform:	All Platforms
Bug Description:	In some cases mocha will crash when camera-solving difficult tracks.
Workaround:	None
Issue:	DE1510 There is no ability to toggle active for several selected layers
Platform:	All Platforms
Bug Description:	While you can apply all other right-click options to multiple layers, you can only apply "toggle active" to the layer you were over when you right clicked.
Workaround:	Choose "toggle active" on separate layers rather than a selection of layers.
Issue:	DE1500 Wrong spline behavior in AdjustTrack
Platform:	All Platforms
Bug Description:	Sometimes using AdjustTrack on a surface will not adjust the spline as well.
Workaround:	None
Issue:	DE1494 Transform tool sometimes interferes with tangents
Platform:	All Platforms
Bug Description:	Sometimes the transform tool can get in the way of adjusting tangents
Workaround:	Turn off transform tool
Issue:	DE1490 There is incorrect importing QuickTime footage with pulldown on windows
Platform:	Windows
Bug Description:	There are some artifacts when playing back QuickTime footage that contains pulldown.
Workaround:	None
Issue:	DE1489 There is no ability to export tracking or shape data for a layer that was deactivated on some frames
Platform:	All Platforms
Bug Description:	The exporter cannot handle deactivated layers as it does not know how to convert the information to export formats. You will receive an error.
Workaround:	Do not deactivate layers on frames if you want to export tracking/shape data formats
Issue:	DE1442 Dope Sheet: Cannot select several blocks of keyframes
Platform:	All Platforms
Bug Description:	You cannot use the shift key to marquee-select multiple blocks of keyframes
Workaround:	None
Issue:	DE1433 An error appears in using Point Insertion tool for multiple selected layers
Platform:	All Platforms

Bug Description:	If you select 2 layers and try to use the point insertion tool you get the error: "Error: Could not find parent contour of the point."
Workaround:	Add points to one layer at a time
Issue:	DE526 OpenEXR error messages
Platform:	All Platforms
Bug Description:	Attempt to open an unsupported EXR format (e.g. image with single channel named "G") results in error message.
Workaround:	None.
Issue:	DE566 Crash when resizing with no docked sidebar panes
Platform:	All Platforms
Bug Description:	mocha crashes after the canvas is resized to zero-height.
Workaround:	None.
Issue:	DE633 Canceling "Save Data as" dialog causes canceling "Export Data" dialog too
Platform:	win_i386
Bug Description:	Canceling "Save Data as" dialog causes canceling "Export Data" dialog too (f.e. Export Tracking Data)
Workaround:	None.
Issue:	DE653 Using Ctrl+Z to undo values on the Parameters tab doesn't work
Platform:	Mac OS and Windows: 32-bit
Bug Description:	
Workaround:	None.
Issue:	DE663 Nothing happens when importing RGB or RGBA exr as a matte clip
Platform:	Mac OS and Windows: 32-bit
Bug Description:	When importing a matte clip and choosing an OpenEXR file that is not an 8Bit grey-level one, the Message "The Format of the clip is RGB(A), mocha Pro will convert the clip to grey-level 8Bit " appears and after clicking "OK", nothing happens as if the importing was cancelled
Workaround:	None.
Issue:	DE669 EXR incorrectly shows when the project moves between platforms and if EXR clip was selected in the Relink dialog.
Platform:	All Platforms
Bug Description:	mocha Pro incorrectly shows EXR when the project moves between platforms and if EXR clip was selected as Relink dialog. Visible is a mosaic of pink points.
Workaround:	None.
Issue:	DE877 A layer is messed up if spline points are being dragged without holding ALT
Platform:	All Platforms
Bug Description:	A layer is messed up if ALT is held down while moving spline points and then releasing ALT before finishing the move
Workaround:	None.

Issue:	DE985 Holes in foreground layers are ignored when tracking
Platform:	Mac
Bug Description:	If you cut a hole in a foreground matte in Hardware Rendering mode using Add to Layer and then track the background layer, the hole is ignored and will still mask the tracking.
Workaround:	None.
Issue:	DE1005 Sometimes list of shortcuts are not updated after changing Module in the Preferences
Platform:	All Platforms
Bug Description:	Sometimes list of shortcuts isn't updated after changing Module in the Preferences
Workaround:	None.
Issue:	DE1063 Clip name isn't updated correctly
Platform:	All Platforms
Bug Description:	Renaming a clip isn't updated correctly in the clip tab
Workaround:	Save and reopen project after renaming.
Issue:	DE1146 Crash in changing log/panalog to linear colorspace for projects based on video footage
Platform:	All Platforms
Bug Description:	Crash in changing log/panalog to linear colorspace for projects based on video footage
Workaround:	None.
Issue:	DE1241 Zoom window can be manipulated when switched off
Platform:	All Platforms
Bug Description:	If you turn off the zoom window it can still be panned and zoomed into, which can cause problems when it gets in the way and no one can see it.
Workaround:	None.

Hardware Requirements

Recommended Hardware

- Processor: Intel Core 2 Duo or equivalent
- Memory: 4 GB +
- Disk: High-speed disk array
- Graphics Card: NVIDIA Quadro FX 1500 or equivalent
- Monitor: 1920x1200
- Network: Must have an enabled network adapter (wifi or ethernet)

Minimal Requirements

- At least 1-GHz Pentium IV
- Memory: At least 1 GB
- Disk: At least 1 GB
- Graphics Card: Must support OpenGL 2.0
- Monitor: Minimum resolution 1200x800 pixels

- **Network:** Must have an enabled network adapter (wifi or ethernet)

Working with high-resolution footage such as 2K or HD is very demanding on system resources; a system with at least 4 GB of system memory and 256 MB of texture memory should be used.

Software Requirements

Operating System

- **Mac:** Mac OS X 10.6.x or higher, on Intel. PowerPC is not supported.
- **Windows:** Windows XP Professional SP2 or higher, Windows Vista Business or Ultimate, Windows 7 on x86 or x64.

Note: Imagineer Systems is not responsible for any operating system upgrades or modifications, third party applications or hardware changes that reduce or disable mocha functionality.

Compatible Third-Party Software

mocha AE can export tracking and shape data to a selection of third-party visual effects software. These are the versions we have tested:

Application	Version	Track	Shape	Camera	Comments
Apple Final Cut Pro	6.0.5- 7.0.3	X	X		Shape export requires mocha shape for Final Cut plug-in.
Apple Final Cut Express	4.0.1	X	X		Shape export requires mocha shape for Final Cut plug-in.
Adobe After Effects	CS3+	X	X	X	Exporting Corner Pin data to non-English versions of After Effects requires CS4+. Shape export requires mocha shape for After Effects plug-in.
Apple Motion	3.0.2+	X			Shape export can be done via Final Cut
Boris FX BCC plugins		X			Tracking export requires Boris BCC plugin that supports importing of tracking data.
FXhome Ultimate	HitFilm 2.0+			X	

Community-supplied importers are known to work but are not supported by Imagineer.

Installation

Windows

1. Once the installation file, mocha4ae-3.2.1-xxxx.exe, has been downloaded onto the system, double click the file to begin installation
